## Taking white light to the next level

### Philips X-tremeUltinon+ LED headlights

Philips **X-tremeUltinon+ LED** bulbs are equipped with exclusive Lumileds TopContact LED chips. These unique OEM LEDs provide up to 160% brighter light for extra visibility and up to 5800 K arctic white light. Delivering optimized light consistency, these bulbs generate less heat and feature the ideal light color for sharper visibility.

X-tremeUltinon+ LED bulbs feature a unique design that integrates the drive-box electronics into the bulb body, for quick and easy installation.

- Deliver up to 5800 K arctic white light for high-end styling that is noticeably whiter than standard
- **Up to 160% brighter light** for extra visibility
- Compact design makes installation easier in an even wider range of car models
- Direct replacement for conventional headlight bulbs
- Equipped with exclusive Lumileds TopContact LED chips

Includes a pack of 2 LED bulbs

See list on back side for bulb availability.

# Philips X-tremeUltinon+ LED headlights

## Taking white light to the next level.

### Philips X-tremeUltinon+ enhanced performance and improved design

- Improved heatsink design, with uniformity, leading to enhanced stability / better lifetime performance.
- Philips Light Repair CANbus functionality is directly integrated into our new-generation bulbs to prevent flickering.\*
- Powerful bright light and superior light diffusion puts the light precisely where drivers need it.
- Patented SafeBeam technology eliminates glare to other drivers.
- Patented AirFlux+ cooling technology diverts heat away from the light-critical components for longer lifetime.
- Compatible with many vehicle models. Check vehicle user manual for more information on installation.

**New SKUs:** 9004, 9007, 9008, 9145

**Coming soon:** 9005, 9006, 9012, H1, H3, H4, H7, H11, H8/H16 Fog

*\*Generally, no need for additional accessories. In some rare cases, depending on your car model and other parameters related to your car computer, an additional CANbus might be required to further reduce the flickering effect. Please note, a separate Adaptor CANbus may still be required.*

**Important: Not for sale in the USA; sold in Canada only.**
