

January 31, 2022

Dear Sir or Madam,

The following information is in regard to Lumileds' implementation of the European REACH regulation 1907/2006/EC for articles governing product components, sub-assemblies, and substances like chemicals, mixtures or preparations.

Lumileds and the REACH Regulation

Lumileds supports the objectives of REACH to further improve the European Union's regulation on chemicals, including the objective to advance public health and safety while protecting the environment.

Information on SVHC and restricted substances

For all individual raw materials, parts and components that complete the products and its packaging, Lumileds requests information with respect to REACH-associated substances from its suppliers to ensure compliance with articles 33 and 76 of the REACH regulation. Please note however, that the European Chemicals Agency, (ECHA), will regularly update the Candidate List of SVHC, and that exploration by SVHCs in Lumileds' products is an ongoing process which Lumileds' suppliers are also involved in. The attached declaration is the current list based on the available information Lumileds has at this time. However, because of the continued ECHA diligence it may not be an exhaustive list. As the information from ECHA is updated, Lumileds will continue to evaluate raw materials and products for compliance.

Sincerely,

DocuSigned by:

Lumileds LLC

REACH DECLARATION

Under REACH Regulation Articles 3, 6 and 7, Lumileds is a manufacturer of **ARTICLES**. The declaration below relates to all solid-state light emitting products¹ and related packaging manufactured either by Lumileds, or through all subcontract manufacturers. Although the manufacturing of the relevant article / chemical may be outside of the EU, Lumileds is a European Company, headquartered in the Netherlands and will take the responsibility for REACH compliance accordingly.

1. Lumileds confirms that we understand our obligations under the EU REACH Regulation.
2. Where the manufacturing of a chemical substance takes place outside the EU, Lumileds will ensure that you, our customer, does not need to act as the importer under REACH.
3. The articles manufactured by Lumileds do NOT release substances under normal or reasonably foreseeable conditions of use.
4. Lumileds products and packaging do not contain substances on the list of "Substances of Very High Concern" as published by ECHA on October 28, 2008 and updated on January 17, 2022.
As this list of Substances of Very High Concern will be updated regularly, we refer to the ECHA website for the most recent information:
<https://echa.europa.eu/candidate-list-table>
5. We confirm that we comply with all relevant marketing and use restrictions pursuant article 67 of REACH.

¹ Except for intentionally leaded superflux products which contain lead above 0.1% w/w.
